

## Director General's Report to Council

by R. T. Mills

### Resignation of Commissioner Allan Levine

On behalf of senior administration and the entire Lester B. Pearson School Board community, I wish to express deep appreciation to Allan Levine for the selfless contribution that he has made to education over many years. Allen's involvement began with the Lakeshore school board, one of our founding boards and has continued until his resignation effective this evening. While playing a variety of roles at the school level and at the Council of Commissioners, he has never failed to express his opinion openly and honestly. He has been a diligent and very professional representative of his community. We will certainly feel his loss but wish him every continued success and much more time with his family. I assure you, Alan, that your efforts will not be forgotten.

### Saint Patrick's Day Parade

We had a wonderful turnout for the annual St. Patrick's Day parade and, quite remarkably, spent time in bright, comfortable, sunny weather. The event proved very positive in every respect and the participation of parents, staff, and students was very apparent. Thanks must be extended to our Director of Student Services, Mario Barrette, for his organizational efforts and to members of our maintenance department for their preparation of our float. The Lindsay Place High School musicians added to their superb reputation as they played throughout the parade on the Lester B. Pearson School Board float.

### Central Parent Committee Conference

The Second Annual Parent Conference organized by the Central Parents' Committee will be held at the Pearson Electro-technology Center on Saturday, March 31. This promises to be a very valuable day in which there will be varied discussions and presentations on the theme "Raising Awareness for Student Success - The Parents Role". Workshop topics have been developed to reflect suggestions received at last year's sessions and will feature resource personnel from our Student Services and Educational Services Departments. If you have not yet registered, this can still be done through the CPC Website link.

### Interview of Prospective Teachers

As in past years, under the guidance of our Human Resources Department, interviews of prospective new teachers were held

# Vocational Education Takes the Show on the Road

by Marie José Gélinas  
Pedagogical Consultant

It's that time of year again, when students begin to consider life after high school. To help them make a more informed decision, high schools have hosted teams of teachers and students from dif-

The artist at work.

ferent Lester B. Pearson vocational centers eager to offer their diverse programs to a new crop of graduates.

Organized by Transitions Consultant Peggy Grant, the Vocational Road Show provides students in high school with the opportunity to learn about the 26 different programs offered in the school board's four vocational centers.

Every visit begins with an overview of the programs as well as ad-

mission criteria and procedures. Students from different centers speak to their hosts about their experience in their program of choice, and share their personal stories. These testimonials help high school students identify with these young people, who were not so long ago facing the same decisions.

After the information session, the fun begins. Students and teachers from the vocational centers set up demonstrations of their skills in the hall, and students get to see first-hand what they too could learn.

During the last week of February, students and teachers from the Gordon Robertson Beauty Academy visited John Rennie, Lindsay Place and Macdonald High Schools. After the information session, students were met with an impromptu salon right in their school. Gordon Robertson staff and students brought all their magic tools, and offered students a chance to undergo instant beautification right there in the hall at lunch time. Budding hairdressers and estheti-

cians created u-dos, curled hair, and added colorful extensions. A talented young makeup artist completed the makeover with color and style.

Needless to say, the 'salon' quickly became the scene of a lively party, complete with upbeat music, keen models ready to undergo their transformations, and curious observers watching the whole process. This spot became the place to be at lunch! Teachers and students from the host high school gathered around the tables covered with the tools of the trade to watch their friends get a special hairdo or have makeup applied to enhance their beauty. Oohs and aahs greeted a new head of curls, an elegant up-do, dramatic eyes.

What about the boys, you say? Students at Macdonald High School welcomed Telecommunications teacher Ian Banville, from Pearson Electro-technology Center. An avid spokesperson for his

field of choice. Mr. Banville introduced Macdonald students to the world of fiber optics. Equipped with sample cables, connectors and a software program designed to give students a peek into the structure of a cable, Mr. Banville was surrounded by a growing

Telecom teacher Ian Banville informs his growing entourage about fiber optics technology

group of curious young boys. Although many still have a few years left in high school, it's never too early to prepare the way for future PEC-techs.

All in all, the Vocational Road Show offered high school students at glimpse into the working world, and the future looks good!

## Chairman's Report to Council

by Suanne Stein Day

It is truly with regret that I announce that Allan Levine, Commissioner for Ward 9, Pointe Claire East, has informed the board that he will be leaving us. Allan has been an elected commissioner since 1994, first for the Lakeshore School Board and then for Lester B. Pearson after spending four years as Parent Commissioner. I have been asked to share this letter from Lindsay Place High School, and I think they have put it very well.

"It is with great regret we bid adieu to Allan Levine, our commissioner. Your involvement in school governance over many years at the Lakeshore and the Lester B. Pearson School Boards has not gone unnoticed. It will take great shoes to fill the position that you are about to vacate.

"A Commissioner's role is a fine

# Pro football's all-time passer visits Beurling

by Bob Dubois, Community Rep, Governing Board

Last season, Anthony Calvillo became the CFL's all-time leader for touchdown passes and for completed passes, and late in the 2011 season, for good measure, he added another feather in his cap and solidified his place in sports history by becoming Pro Football's all-time passer, ending the season with 73,412 career yards – surpassing such luminaries as Brett Favre and Damon Allen.

We invited Anthony to visit our school to talk to some of our athletes after the 2010 season, with the Grey Cup in tow, but as we all know, Anthony took time off to battle a form of cancer. The Alouettes' number 13 and three-time Grey Cup champ kept his word and visited Beurling Academy's male athletes on Tuesday, February 28th. He gave a motivational talk to a select group of students

followed by a celebratory lunch at Richie's Café with the championship juvenile boys' touch football team. The group included members of the boys' touch football teams and as well as members of local football programs.

Anthony spoke candidly about his early days in East Los Angeles, mentioning it wasn't an easy childhood, and that he excelled more in basketball than football at Utah State U. His mother being the sole parent during his young-

er days, he told the students that it was important for him and his brothers to break that cycle and to be there for their kids and that family life is very important.

He also mentioned that during the college days, he started lis-

tening more to his teachers and coaches who stressed the importance of striving for academic excellence as well as athletic excellence.

Anthony then opened the floor to questions from the students who mainly asked questions about his CFL career as well as sports he played in the past. In an answer to a question, he mentioned some of his favorite receivers, not surprisingly including Ben Cahoon, and that last year Jamal Richardson become another favorite.

Following this, it was on to a delicious burger lunch with the boys and more football talk and plenty of photo ops in a visit that the BA community won't soon forget. After all, it's not too often that one gets Pro Football's all-time passer to drop by for lunch at your place.

We would like to thank Anthony for this wonderful visit, as well as our Principal, Mr. David Abracen, Senior VP Mr. Alix Adrien as well as Mr. Richie Klimas for making this visit a successful one.

Anthony Calvillo speaks to Beurling Academy Students

### Strategic Directions in the Pearson News

As you read through the Pearson News, you'll notice that some of the articles have the numbers one through four next to them. These numbers are associated with the LBPSB's 2010-2015 Strategic Plan and its four main directions. Each month, you'll see these numbers next to the articles found in the pages of the Pearson News and it will give you an idea of what the board's schools and centres are doing in line with the new Strategic Plan. You'll find a legend inside with details on what strategic direction each number is related to.

SEE FULL AD INSIDE

## Mills, from page A1

on March 21, proving once again that our reputation is very high with candidates and that there are many young, enthusiastic teachers who wish to join us in our profession. As our needs become identified clearly in the coming weeks, we now have a number of excellent candidates.

### Administrative and Teacher Staffing

We are now actively involved in the process of initial staffing schools and centres for the 2012-2013 school year at both the administrative and teacher levels. Teacher staffing is based on enrolment numbers and is not finalized until the actual student numbers are known in late September. It is anticipated that administrative staffing changes will be brought to the meeting of the Council of Commissioners in April.

### Official Launch of Adult Learners Week 2012

I am pleased to note that the official launch of Adult Learners Week 2012 will be held here in the Board Room this coming Wednesday, March 28 at 2 PM. The Québec Adult Learners Week is being celebrated across the province from March 24 to April 1 and will feature a wide variety of activities at school boards at the ICEA (Institut de coopération pour l'éducation des adultes), QALL (Quebec Association for Lifelong Learning), and la Conférence régionale des élus. I am looking forward very much to hearing the stories of a number of adult learners who have continued their learning in the workplace at school and in everyday life.

## LBPSB Students & Staff Help the Impact Set Attendance Record

With the help of thousands of Lester B. Pearson School Board students and staff, the Montreal Impact's inaugural home game as a Major League Soccer team broke Montreal's pro-soccer at-

tendance record with 58,912 fans in attendance. Although the Impact battled to a tie against the visiting Chicago Fire, the consensus had it that Montreal was the superior team.

The impact awarded "Tony Liscursi" bursaries to Lester B. Pearson students Tyler Sorochinsky,

of Pierrefonds Comprehensive, and Ashley Kellie of Lindsay Place High School. The bursary recognises excellence in student academics and athletics.

If the excitement of the fans and the high calibre of play were any indication, the Impact as part of the MLS will be a huge success.

**Top: LBPSB Students Tyler Sorochinsky and Ashley Kellie show off the bursary cheques awarded to them as Chairman Suanne Stein Day stands proudly by.**

## Stein Day, from page A1

balancing act of representing the School Board and, at the same time, his constituency's aspirations and needs. Allan did this with aplomb. His strength is the ability to listen, be reflective and act upon genuine concerns of his constituents. He has done this over the years with great equanimity.

"A staunch defender and unflinching supporter of our school, Allan has contributed to making it the great school it is today.

"Our school is a Place for the imagination....

a Place for meeting new friends....

a Place for sports and extracurricular activities....

a Place for respect....

a Place for growing....

and most certainly, a GREAT PLACE to learn.

"We thank you, Allan, for your patience, hard work, dedication and the kindness you have given. We thank you for having served.

"Make sure to come back and visit us next year, at our 50th Anniversary celebrations.

"Allan, we wish you all the very best in your future endeavours.

"Signed,  
the Lindsay Place Governing Board"

Allan, I believe I can speak for all of us around this council table

when I add our very best wishes to those of your constituents.

Last month, we showcased some remarkable students with the robots they built and competed with. Since then, students all over our system have been competing and various competitions and making their families, teachers and this board proud.

LBPSB were proud to have students at the FIRST robotics competition. LCCHS Sonic Howl Team and the Beurling Academy Bobcats both qualified for the Quarter Finals in their rookie season. Congratulations!

Lakeside Academy, LaSalle Community Comprehensive, Lindsay Place, Mac High, Pierrefonds, Comprehensive and Westwood Jr. competed in the Montreal Regional Science and Technology Fair. It would be remiss of me not to give Westwood Jr. a special shout out. Their nine entries took home 22 awards!

Congratulations also go out to our students who participated in the 2012 Vocational Olympiads. Six of our students took home medals and four of them are advancing to the regional levels. We wish you the very best of luck.

## PCHS Peer Mediators

Pierrefonds Comprehensive Peer Mediators Katie Howard, Valerie Prsa, and Adelia Shwec accompanied Spiritual Animator Patricia Aldred to Wilder-Penfield Elementary on February 28th. The students

presented a workshop to grade 5 and 6 students on the Nature of Conflict and Collaborative Conflict Resolution. A good time was had by all and the Wilder-Penfield students enjoyed the activities the PCHS students brought to them.

PCHS Peer Mediators with students from Wilder Penfield

## Raptor Presentation to Birchwood Green Team

by The Green Team Members of Birchwood

On February 27 and 28 the students of Birchwood had the pleasure of a classroom visit by Mr. Christopher Nolet, a student from Vanier College. Mr. Nolet is studying Environmental Issues and Wildlife at Vanier.

Mr. Nolet did several different presentations on birds of prey

and endangered species.

We learned that there are a lot of different kinds of birds of prey and their characteristics. Since the birds of prey are at the top of the food chain they have a lot of toxin in them.

We also learned about certain endangered species such as the sharks, the polar bears, the penguins, the seals and many other species.

Mr. Nolet was very interesting and he used beautiful photos which were very educational.

We were very inspired to do something to help the animals.

## Westpark Composting Program a Green Success

by Jennifer Iorio  
Spiritual Animator

At Westpark, our science teacher Carmen Pallotta has been

working with the Grade 3, 4 and 5 students on a very successful composting program. This project has been running for 3 years, and Westpark is buying a second large composting unit because the existing composting unit is filled to the rim! At lunchtime the

students go to every class to collect the material to be composted. There is a rotation so that every student is involved. There is two parts to composting: the green part and the brown part. The green part is the refuse from fruits and vegetables, and the brown

part is the collection of leaves in the fall. Composting is excellent for the environment. The material generates into vitamin-rich earth fertilizer which will then be used for plants in front of the school as well as planting a new garden at Westpark school.

# John Rennie in Pink

## PINK SHIRT DAY

By the John Rennie High School Respect Committee

On February 29th, John Rennie High School joined hundreds of schools nationally and internationally to participate in Pink Shirt Day. The original event was spearheaded five years ago by two senior students in Nova Scotia when they witnessed a junior being bullied for wearing a pink t-shirt to school. Their incentive to get as many students as possible to wear pink in solidarity with the bullied student was not only successful, but inspired other schools to do the same.

Pink Shirt Day has now become a day to rally support for those who have been the victims of bullying. It is a day to stand up and say "I will not be a bystander."

Our junior students received an assembly prior to the event by former NHL player Chris Nilan and seniors received homeroom class-

room presentations by our Gay-Straight Alliance students.

To commemorate our first year of participation in the event, JRHS Pink T-Shirts were printed.

Students & staff contributed to the sea of pink evident on February 29th and the first 250 students to enter the school wearing pink were greeted with a pink-iced cup-

cake. A banner that stated: "I'm an upstander" was signed by many at both lunches.

In light of recent tragic events in Canada in regards to bullying,

John Rennie High School has been working to do its part in the campaign against bullying and to raise awareness among its school community.

# Lester B. Pearson in a Hot St. Pat's Parade

On Saturday, March 17<sup>th</sup>, the Lester B. Pearson School Board participated in the St. Patrick's Day Parade for the sixth consecutive year. The Lindsay Place jazz band played very well under the direction of music teacher Larry Livshits and energized the crowd from the back of the Lester B. Pearson float, which was revamped and spruced up once again by LBPSB carpenters Paul Demers and Laurent Beaulieu

mense, and while historical attendance estimates are not recorded, it's easy to imagine that records were broken.

Thanks to all the commissioners, staff and students who marched and participated, helping to make the day an enjoyable one. Thanks especially to Steven Swailes of Equipment Services for organizing the work done on the float, Rebecca Binet of Educational Services for coordinating the participation of the students, and Mario Barrette, Director of Community Services, along with the Transportation

# Lori Graham Speaks to PCHS Grads

By Magdalena Valiente

On February 24th, Lori Graham, CTV weather reporter, visited her former high school, Pierrefonds Comprehensive High School. She was invited by our principal, Mrs. Wallach, to talk to the graduating class about the journey she took to where she is today and to help motivate them. Lori reminisced about her high

school experiences and her collegial experiences. She spoke about her uncertainty about what she wanted to do when she was seventeen with her life sitting in the same auditorium! Her words of advice were to follow your passion, which is exactly what she did. She explained that you will never know until you try what dreams you can achieve.

Lori enjoyed her time while she attended PCHS and her return to visit us that day. Many of our students had photos taken with her, a great memory from her visit. On the CTV news that night, Lori spoke about her visit here briefly at the end of the broadcast and even wore the PCHS sweatshirt that we presented her with that day!

and electrician Stephane Brunet. Kelly green, covered with the names of all the Lester B. Pearson schools, and with funk and rock music being played by the band riding on it, the float garnered smiles and applause from the enthusiastic crowd. It was mounted on a flatbed truck generously provided by Trans-Plus again this year.

Student volunteers from many Lester B. Pearson schools rode school busses from three pickup points located in different parts of the board's territory to a location on René Levesque. There, they were provided with kits from the United Irish Society containing scarves, mitts and hats. They also received instruction on safety and general parade rules, as well as how to march while carrying the banners of other contingents,

at which they excelled.

The weather helped make this year's event all the more memorable, with temperatures reaching an unseasonable 23 degrees celcius by three in the afternoon. Needless to say, crowds were im-

team for their organizational efforts. Thanks also to Sheila Showers, Daycare Technician at St. Anthony Elementary and member of the United Irish Societies of Montreal, for being the liaison between the LBPSB and the UIS.

# Margaret Manson Green Initiatives

by The Margaret Manson Environment Club

We are writing this letter to inform you of the events that we, the Eco-Ambassadors, have implemented and will be implementing at school.

The first one is called the Eco-Power Hour. On the morning of February 24th we turned off all the lights, computers, printers, photocopiers, etc. in the school for a full hour!

A few Eco-Ambassadors went around from class to class during that hour to ensure that everything was indeed turned off. We hope that all the students and teachers realize how much power we saved in just 1 hour. Thanks to everyone for their help and support.

Another activity we will be organizing is educating all students and staff members on the 3Rs (Reduce, Reuse, Recycle). A group of Eco-Ambassadors will be visiting the children in the younger grades

and playing particular games to teach them about the 3Rs.

Thanks for helping care for our planet.

Here are the Eco-Power tips that we shared with the school, you can adapt some of these for use at home, too!

Turn off the lights when you leave the class.

Turn off smart board when you are not using it.

Turn on the printer only when you need it.

If it's bright outside when

your class is reading, turn off the lights.

Here is an awesome recycling idea:

With spring, comes spring cleaning! If you plan on cleaning out your toy box and would like to donate the gently used toys that your kids have outgrown, we would be very happy to put them to good use in our Kindergarten classrooms.

Thank you in advance for sharing with us!

# Robotics at St. Edmund!

The kindergarten class has been amazing us! Friday, February 24, in the class of Josée L'Archevêque, kindergarten students turned into

little engineers. As they presented the fruit of their labors to their peers and families, one word came to mind: awesome!

# Cultural Month at Springdale

by Cheryl Libman, Ginette Gingras, Jason Cordery and Peter Chan

Springdale School celebrated Cultural Month during the month of February. Our staff

and students are proud to showcase our diverse cultural heritage on a bulletin board entitled "It's a Small World", which depicts words of welcome in 20 languages and the flags of origin of our families.

## 2012 Vocational Education Olympics Gala at PACC – A moment of magic!

by Madeleine Barrette, c.o. Guidance counsellor, Pearson Adult and Career Centre

The Gala for the 12th Montreal Regional Olympics took place at Pearson Adult and Career Centre on Wednesday, March 14th. The one hundred and sixty four finalists and representatives from the five Montreal school boards and the Institut de tourisme et d'hôtellerie du Québec were invited to this event.

In the month of February, finalists from twenty-six Vocational Education programs took part in this competition.

Four students from PACC were awarded medals; two gold, one silver and one bronze!

Caroline Brunet received a gold medal in Professional Cooking, Wangtai Yeung, a gold medal in Pastry Making, Patricia Orsini, a silver medal in Health Assistance and Nursing Care and Sarah Ann Hamilton, a bronze medal in Food and Beverage Services.

More LBPSB students from other centres received gold medals: Anthony Salata, Electricity student at PECC and Jonathan Pipino, Automechanics student at WICC.

To say that this event was successful is an understatement! It was just magnificent!

Upon arrival guests were served cocktails in a decor that seemed to be coming out of a Nordic fairytale with its ice sculpture, lobster trap, caribou antlers and Viking helmet. The cider was flowing, the

food was delicious and the set-up looked beautiful! Guests were able to pick from a variety of open-face Nordic sandwiches, all made by

from PACC had to say! "I felt nervous but confident at the same time. I had trainers who prepared me so well. I couldn't

have been more prepared! Regardless of the results, I had a great time. It was an incredible experience! I started training the following morning for the provincial competition. We're looking forward to bringing PACC another gold medal from

community to enter the competition and to have so many chefs who did everything to help me succeed. I want to thank them!"

Finally, Sarah Ann Hamilton, Food and Services program exclaimed "I'm thrilled and happy! This is the first time that our Food and Beverage Services department at PACC participates in the Olympics. I have nothing but thanks and praise for my teachers! They are great! I am ecstatic! To do as well as we did for a first time is amazing. I bet you that PACC will receive gold in this division at the next Olympics!"

None of this would have been possible without the creativity, enthusiasm and hard work of all students, teachers and staff members who contributed to the success of this event.

**Ben Lanthier, Eric Dufresne, Nancy Gagnon and Ellen Green, Professional Cooking teachers at PACC.**

**Sarah Ann Hamilton, Bronze medalist for the Food and Beverage Services program, with PACC Professional Cooking teacher, Eric Gregor-Pearse**
