

LESTER B. PEARSON
Sources Adult and Career Centre

To whom it may concern,

Please accept this letter as a summary of the feedback from the Sources Adult Career Center governing board for the upcoming budget consultation. Taking into consideration the Major School Change planned for the coming summer the programs of *General Building Maintenance* and *Hygiene and Sanitation* would like to draw attention to the following requests:

- Funds to be allocated for successful and timely renovating the new premises for the needs of successfully running the programs of study before the arrival of the new cohorts.
- Funds to be reserved for equipment, tools and materials for the initial successful launching of the programs of study in the new Centre.
- Funds to be reserved for a massive advertising campaign in order to make the new Centre known and popular in the West Island and Greater Montreal area communities.

Further, the Residential and Commercial Drafting Department, while fully and strongly endorsing the above-mentioned considerations would like to draw your attention to the following issues, which we believe, require additional funding:

- The importance of early literacy intervention.
- The need for continued emphasis on Integration of technology.

Sources Adult and Career Centre

In addition, we wish to emphasize the importance of continued investment in IAQ (Indoor Air Quality) as part of the school board's priority to maintain its buildings.

It is our opinion that in the light of upcoming budget compressions that the board can increase its savings throughout the board by investing in ERV and HRV energy recovery systems.

Thank you for your time and consideration in this matter,

Sincerely

Pamela Brown

Chairwoman

Sources Adult Career Center Governing Board
