

Daycare Program

Play, Learn, and Grow together at Beacon Hill

Our Philosophy

Our goal is to provide a safe, happy and structured environment where we learn, work and play together. We hope to provide your children with a service that is not only fun but educational. Depending on how long your child is with us, we will be introducing arts and crafts, recommended videos, supervised playtime, baking and cooking, use of the gym and other special activities. It is important that the students feel part of this caring community and understand that respect for one another is imperative.

Lunch Supervision

If your child stays for lunch at school they are automatically part of the lunch supervision program. Children eat lunch in their classrooms and are supervised by our staff. Microwaves are available to warm up lunches. Children will have approximately 25 minutes of outdoor play every day. We ask that all peanut products be left at home due to children with severe allergies.

Fee Structure

Our Daycare fees of \$8.50 per day are calculated according to the Ministry of Education guidelines for a subsidized program. To qualify for the subsidized rates you must register your child by mid-September and the child must attend at least 3 days per week. This fee includes morning daycare, lunch supervision and after school daycare. Unfortunately, we do not accept drop-ins at our daycare program.

Fees for Lunch Supervision

The lunch fee is included in the \$8.50 for the children that attend daycare.

Those children who do not attend daycare are charged a daily fee of \$2.00

Pedagogical Days

We have about 10 ped days a year when the school is closed but daycare remains open. We always plan something special on these days. Children are introduced to new activities and new experiences. A registration letter is usually sent home two weeks in advance. For ped days there is a \$10 supervision fee plus a fee for the activity.

Communication

Our goal is to have an open line of conversation with both students and parents. We believe that a quality daycare program will give you “peace of mind” knowing that your child is happy and well taken care of. We encourage the children to play fair, respect each other, do their homework and make friends.

Please refer to the Rules & Regulations section on our website for more information -
