# Student Life Highlights

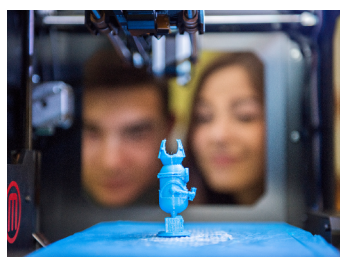

## BISON NEWS

This YouTube channel is our source of student-created news. Produced by student volunteers, the team not only creates outstanding YouTube content, but they also visit elementary schools and teach younger would-be creators the fun and creative side of video-making. # French Programs

## Défi Français

The Défi Français program offers students the opportunity to perfect the strong skills they already possess in French. Students in this program work on maintaining the confidence they have in using the language in a variety of situations, but also go beyond the functional level of French required to be an active member of the French community in Québec, and strive for a level of advanced fluency.

---

## Français Enrichi

The enriched program aims to develop more complex skills related to oral and written interaction. The student is called upon to attain a level of autonomy and ease with the language that will facilitate his/her integration into the francophone community of Quebec on a variety of levels such as social, cultural and professional.

---

## Français de Base

This program aims to help students develop a functional knowledge of the language. The ability to interact in French, orally and in writing, with different audiences, whether it be friends, peers, business owners in their environment and eventually employers is our goal for each student. The communication skills developed within the framework of this program will help them become engaged citizens able to take part in the francophone community life here in Quebec.
