

Alex Forand, WICC alumnus and apprentice at Alfa Romeo

Alex Forand is a true Lester B alumnus! He began at Sherwood Forest (now Sherbrooke Academy), then went on to St-Thomas and finally graduated for a third time from the West Island Career Centre (WICC) where he obtained his Diplôme d'Études Professionnelles (DEP) in Auto Mechanics.

Today, he is a 3rd year apprentice working towards obtaining his Class 3 certification with the enthusiastic support of his employer Alfa Romeo Des Sources, where he has been working for the past 2 years.

“César Brunet and Dirk Gundlach (WICC) took a hands-on approach to teaching and really got us involved in learning. You could tell they cared about our success, even after graduation. They looked out for us. They helped me get to where I am today.”

“You can't ask for more, he is hard working and meticulous. I'd take 3 or 4 more employees like him. He has a great attitude, and he makes everyone around him smile,” says his manager.
