

Lorne Glazer

Traffic broadcaster

My time at the Lester B. Pearson School Board started at Westpark Elementary School and then at John Rennie High School. Some of my best memories include English class with Mr. Blackman where I learned how to be disciplined and Auto Mechanics with Mr. Goslett where I felt that I could succeed in a trade that I would enjoy.

Drama class really helped me feel more confident to use my voice and to speak in front of others. I had always been interested in radio and remember listening to a local radio station over the PA system every morning before class. It sparked my interest in the medium and fostered my career aspirations to become a broadcaster.

I wouldn't have been able to achieve my success without the encouragement I received in school.
