

## Jacqueline Simoneau Olympian

Today we are featuring Jacqueline Simoneau as the latest inductee into the Lester B. Pearson Alumni Virtual Wall Of Fame. The Virtual Wall Of Fame showcases the accomplishments of different LBPSB alumna who talk about their experiences and memories of the different schools they attended.

Jacqueline is a 3X Olympian, World Champion and world record holder. She went on to study health sciences at Vanier College and is completing her doctorate in podiatric medicine.

---

"It's truly an honor to be considered for the Lester B. Pearson School Board's Virtual Wall of Fame.

My time at JRHS Sport-Etudes was incredibly formative, both academically and athletically. The support and understanding from my teachers were instrumental in helping me achieve my goals in both realms. Their accommodation of my rigorous training schedule while maintaining a high academic standard truly exemplified the spirit of dedication and support within the school community.

Heading into my third Olympics this summer and concurrently completing my doctorate in podiatric medicine is a testament not only to my personal dedication but also to the supportive environment fostered by institutions like the Lester B. Pearson School Board. Thank you once again for this opportunity."
