

## K4 Program

All I really need  
to know I learned in  
kindergarten

**Physical and motor development:** To provide opportunities to increase physical and motor development and to learn and encourage healthy lifestyle habits.

**Emotional Development:** To build self-esteem, self-confidence and to create opportunities for self-knowledge.

**Social Development:** Maintains harmonious relationship with others while developing social skills and to foster a sense of belonging.

**Language Development:** The child communicates by exploring written and oral language. Child starts to make sense out of pictures and books. The beginning stages to re-telling a story. Games and songs are used.

**Cognitive Development:** Explores the world around him or her. Thinking skills are fostered through learning questioning, problem solving, imitation, memory, classification and symbolic play.
