

Frankie Martella

Administrative assistant at the LBPSB and PACC Adult Education alumnus

I received my Diploma of Vocational Services in accounting from PACC in 2008. I really enjoyed my time at PACC. My teachers were amazing and extremely helpful. I loved how the program was very hands on.

This course is what helped me obtain my current position at our school board as an administrative assistant in the Educational Services Department. I assist my director, assistant director, educational consultants, and support staff with their workshops and process any related expenses. Most recently I was involved in the creation of the online academy. It's wonderful to be an alumnus at the school board I graduated from!
