

Sabrina Ullah,
Director of Strategy, Innovation, and Subject Matter Experts at SNC Lavalin

The amazing teachers and the programs at John Rennie High School prepared me for my career. My favourite classes were science, economics, geography, world history, English and Spanish.

Ms. Sullivan, who led the debating club, recruited and coached me in the valuable skill of public speaking and took me to every competition she could. I also remember the Resource Centre supported us when we initiated Rennie's first multicultural day when over 1000 students gathered to showcase and celebrate diversity.

Participating in extracurricular activities like the robotics competition, the black and gold talent show, the fashion show, and five years on the badminton team made Rennie the best experience.

My teachers and principal, Mr. Harris, provided their support and endorsement, which helped me leave with the Avon and Canadian Merit Scholarships.
