

St. Patrick Elementary School

We thank you for your interest in St. Patrick Elementary School! We are committed to excellence. In order for all students to become lifelong learners, our goal is to ensure that they are supported and engaged in their learning. The staff is committed to the global learning of each child in reaching their full potential. This includes not only improving their academic abilities, but also ensuring their sense of wellness and belonging in the school community.

St. Patrick Elementary strives to:

- Build strong **learning partnerships** between students, staff and parents in order to best support the learning process.
- Create a **learning environment** in which every student feels valued, respected and safe.
- Embrace **pedagogical practices** with high academic standards and expectations of student excellence in all subject areas.
- Foster an environment where students can **leverage technology** in pursuit of academic goals and achievement.

We believe that, in providing a safe and caring environment and in building strong relationships with our students, we create a strong sense of belonging and student engagement. We encourage students to **collaborate**, be **creative**, use **critical thinking**, understand **citizenship**, build **character** and strengthen their **communication** skills. These 6 C's are weaved into our academic program.

Our school offers a bilingual program of French and English instruction from Kindergarten to grade 6. Our wish is for all our students to leave St. Pat in grade six as lifelong learners. For a complete description of St. Pat's academic program, please visit our website and look under the tab "Programs".

The strength of St. Pats' community is legendary! Our families are involved in their children's learning and are always ready to give their support to the school. Our Home and School association (H&S) is a very dynamic team of parents who help support many initiatives that would not be possible without their precious involvement. Every parent is most welcome to join H&S: on our website, please look under the "Parent info" tab.

In these unprecedented times, we will continue to all work together for our children. Communication and collaboration between home and school will ensure that we are all working towards having the best and safest environment possible for them to thrive.

We invite you to peruse through our website for more information and don't forget to like our Facebook page.
