1. This Regulation determines the services provided within the scope of special school projects and school activities to which the right to free school services provided for in section 3 of the Act does not apply.

It clarifies the scope of the right to free instructional material provided for in section 7 of the Act.

It also establishes standards for the financial contributions that may be required for the services and activities referred to in the first paragraph, for material to which the right of free use does not apply and for supervision at lunch time provided for in the third paragraph of section 292 of the Act.

2. For the purposes of this Regulation, “special school project” means a project approved by the governing board and carried out for one or more groups of students enrolled at the elementary or secondary level among the following:

- (1) sport-study programs recognized by the Minister;
- (2) arts-study programs recognized by the Minister;
- (3) programs recognized by Baccalauréat International;

(4) Concentration or Profile type projects, that is, those intended to meet the student's interests by activities or one or many local programs of studies and school interventions related to the field of activity specifically covered by the project.

DIVISION II

3. The services provided within the scope of a special school project to which the right to free access provided for in section 3 of the Act does not apply are the following:

(2) the issue to the student of a certificate from an outside body within the scope of the project;

(3) the school coordination required to allow the carrying out of the project;

(4) the participation of a coach or other specialist not acting as a teacher in a study program;

(5) the renting of a sports facility or of premises required for the carrying out of a project.

4. The school activities to which the right to free access provided for in section 3 of the Act does not apply are the following:

(1) the activities conducted outside the premises of the educational institution attended by the student, including transportation to the premises of the activity;

(2) the activities conducted with the participation of a person who is not a member of the staff of the school board and similar to those referred to in paragraph 1.

DIVISION IV

STANDARDS RELATING TO CONTRIBUTIONS THAT MAY BE REQUIRED

8. The governing board must implement measures to facilitate access by each student to all services, activities or materials for which financial contribution is approved under section 75.0.1 of the Act.

The governing board must also inform the school board of all financial contributions approved under that section.

9. Every financial contribution required for a service referred to in section 3, for an activity referred to in section 4 or for material to which the right of free use does not apply must be the subject of a clear and detailed invoice. Where a voluntary contribution or a donation is requested, no amount related to it may be included in the total indicated on the invoice.

10. No financial contribution may be required for a service, activity or material that is subject to financing provided for in the budget rules determined by the Minister, such as paper tissues and other items required to be supplied for health or hygiene reasons.

Such financing must be deducted from the amount of the financial contribution required where it covers part of the expenses incurred.

11. No supplier or specific brand may be imposed with reference to material for a student's personal use, other than activity or exercise books.
